1. Purpose

This Greenhouse Gas Report (GHG Report) has been developed to address Condition 8-9 of Ministerial Statement 1195 (MS 1195) - Greater Paraburdoo Iron Ore Hub.

This GHG Report covers the period from 1 January to 31 December 2023.

2. Data

2.1 Greenhouse gas emissions

The total annual greenhouse gas emissions at Greater Paraburdoo Iron Ore Hub for calendar year 2023 was 3,905.37 tCO2-e. This total represents construction activities in the development of the new deposits.

2.2 Emissions intensity

There is no emissions intensity to report for calendar year 2023 as production has not commenced on the deposits subject to MS 1195 boundaries.

2.3 Production

There is no production to report for calendar year 2023 as production has not commenced on the deposits subject to MS 1195 boundaries.
